DETAILED ACTION

1. **Note:** The indicated allowability of claims 1-3 & 10-12 is withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3 & 6-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1-3 & 6-14 the phrase "optionally" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "optionally"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05.

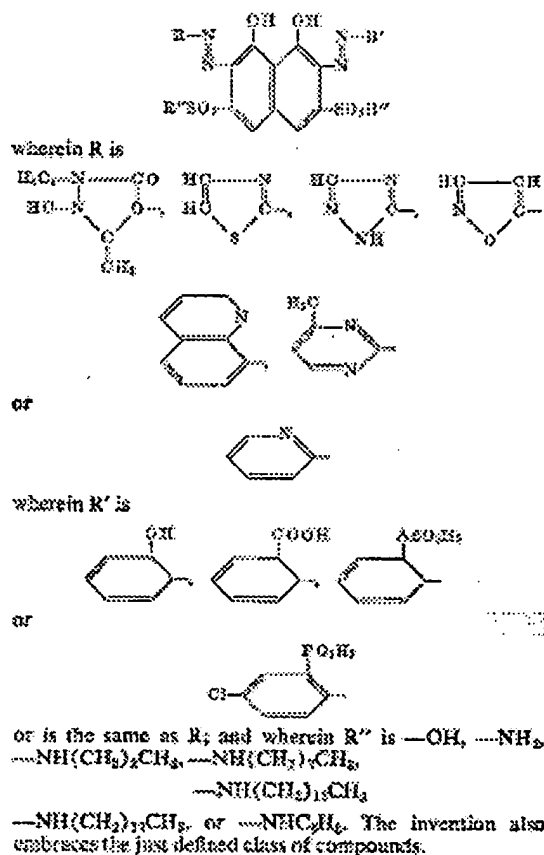

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

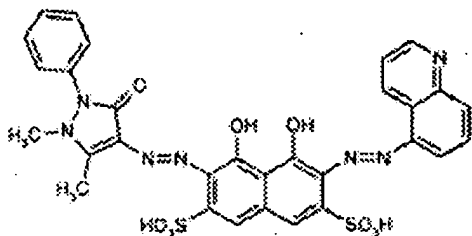

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-3, 6-9 & 13-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vrzalova Dana et al. (# US 3527749).

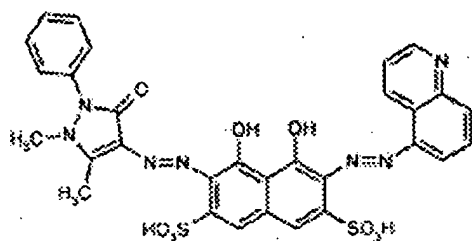

Vrzalova Dana et al. discloses a disazo compound of formula with sulpho and carboxy group as shown below (see Abstract; column: 2, line: 25-65).

Vrzalova Dana et al. explicitly didn't disclose that compound not contain any group of formula $\text{SO}_2\text{-CH}_2\text{-CH}_2\text{-O-SO}_3\text{H}$ or $-\text{SO}_2\text{-CH=CH}_2$; and compound of formula is not

Vrzalova Dana et al. teaches diazo compound in column: 2, line: 25-65, however, they didn't disclose that compound contains any group of formula $\text{SO}_2\text{-CH}_2\text{-CH}_2\text{-O-}$ SO_3H or $\text{-SO}_2\text{-CH=CH}_2$; and compound of formula is not

Therefore, it would have been obvious that disazo compound taught by Vrzalova Dana et al. don't have the compound claimed by the applicant.
